Parent Information Sheet 2018-2019

Child's Name _____ Elementary School _____

4th Grade Classroom Teacher _____

This is an optional (not required) parent input and information sheet. Because we are dedicated to developing balanced homerooms where each child will be placed in a successful learning environment, we are not able to take individual requests for your child to have a specific teacher. We want to assure you that your child will get a highly skilled teacher for next year.

1. Describe the type of classroom environment you believe would provide the best learning for your child.

2. List any other concerns we should be aware of regarding your child's placement.

Please return this sheet to your child's elementary school in an envelope marked "5th Grade Parent Information Sheet" by Friday, April 20. The forms will be forwarded to the appropriate middle school. We will do our very best in placing your child for 5th grade.
