

Photo One: Students in Sales and Advertising, were able to learn how to fly a drone for their class project. Every one was able to fly the drone and capture videos and photos of their choosing.

Photo Two: The girls swim team scored the most points for MHS in over 20 years at the State meet. A handful of them placed in their respective events for the tournament.

Photo Three: Students who are interested in the health science fields were able to visit Marquette and WCTC to learn more about their programs. This student is learning about heart rate.

Photo Four: Our Art students at MHS hosted their annual Art Show at Vintage Coffee Grounds in Muskego. Community members were able to attend and purchase the art from the evening.

Photo Five: Over the summer, students were able to visit a variety of trade unions to learn more about the different trades and how to start a career in them after high school.

Photo Six: The Future Business Leaders of American hosted a fundraiser for Breast Cancer Research. These pink shirts were being sold during lunch for the students to purchase them.
