

The following information is a list of tutoring resources outside of Middle School. The Muskego Norway School District does not endorse or recommend any of these specific resources. It is a parent/guardian's responsibility to contact the individual and/or agency to determine if the services provided will be appropriate for your child. We encourage you as parent/guardians to investigate and research several options to learn what will be the best option for your child. **As always, we hope your child is also first working with classroom teachers for academic support.**

Name/Organization	Subject	Contact Information	Location /comments
Brookfield Learning Center	All subjects	262-781-3634	Brookfield
