

Why take
ENGAGE™?

Your school wants to provide you with the tools you need to learn, succeed, and progress to the next level.

That's why your school offers ENGAGE.

ENGAGE is a 30-minute questionnaire that helps your school learn more about you and what you need to do well in school. Results from ENGAGE will help your teachers, counselors, and administrators better understand you and suggest ways to help you succeed in school.

A Message to Parents

ENGAGE is an assessment used by your school to measure academic behavior and determine your student's personal strengths and weaknesses and how they might impact your student's ability to succeed in school.

The school will review the results of ENGAGE with your student and offer suggestions for ways to use strengths to his or her advantage and overcome any weaknesses.

The goal is to use ENGAGE results and suggestions to help your student improve grades, succeed inside and outside of the classroom, and focus on completing school.

Common Questions about ENGAGE

When can I take ENGAGE?

ENGAGE can be taken at any time.

What is included in ENGAGE?

ENGAGE is designed to identify your personal strengths, to see how you view school and your education, and to find out how you relate to others.

Are there right or wrong answers?

With ENGAGE, there is no pressure. There are no right or wrong answers. Carefully read the questions and answer them honestly.

How will results from my ENGAGE assessment be used?

After you've completed ENGAGE, a teacher or counselor will review the results with you. They will offer some suggestions for ways that you can make the most of your strengths and develop better skills to increase your academic success.

Do my teachers also evaluate me with ENGAGE?

In some cases, one or more teachers may evaluate a student using ENGAGE Teacher Edition. ENGAGE Teacher Edition provides a teacher's perceptions of a student using questions that are similar to the student edition of ENGAGE. Your school may use information from ENGAGE Teacher Edition to help you succeed in school.
